ELIGIBILITY CRITERIA FOR PARTICIPATING Gram Panchayat

To be eligible for receiving an OMIF grant from the Project, it is necessary that the participating GP has the land resources, opportunities, and the willingness to start interventions for sustainable land and water management in the upstream areas, and scope for construction of irrigation infrastructure which can be used by the village farming community. All project GPs are therefore eligible for setting up OMIF.

Bank and account criteria

A separate Aadhaar-linked bank account in the name of "IDP OMIF" would have to be opened by the GP in a public sector bank, preferably within the GP area, for all OMIF-related 14 transactions. In case appropriate banking facilities are not available in the Panchayat area, the account may be with any other bank operating in nearby area, with prior approval from the concerned DPO. The bank account will be a "No-Lien Account," implying that the funds kept therein cannot be attached to any proceedings against the GP. The HPFD/Project, through the concerned DPO, will have the right to direct the bank to freeze the account on written instructions given to the bank in case any irregularity is noticed. It will be operated by the Panchayat following appropriate GP financial management procedures. There will be two signatories for operation of the Bank Account, i.e., the Panchayat Pradhan & the Panchayat Secretary as per provisions of the Panchayati Raj (Finance, Budget, Audit, Works, Taxation and Allowances) Rules, 2002.

Eligible Assets under OMIF

All the community irrigation infrastructures established/ repaired/ rejuvenated with the project investment and other existing GP assets which are being used by communities will be eligible to receive the grants under OMIF, for purposes which match OMIF objectives and subject to number of beneficiaries being equal to or exceeding five.

Cost Sharing (Matching Arrangements)

This process would be undertaken during the regular cycle, after being initiated from the second year of project implementation. Subject to a minimum collection of INR 5,000, the Project will make a corresponding MG as tabulated below till the total Project contribution is INR 100,000 (US \$ 1428.57) or until the end of the Project, whichever is earlier Table 2. To encourage continued revenue raising the project will provide subsequent top ups once two conditions have been met: 1) An additional amount

equivalent to the threshold (i.e. an additional Rs 5000) has been deposited from users and 2) At least 75 % of the original balance has been disbursed on O & M activities. An agreement for matching grants will be executed between the concerned DPO and the GP before the release of grant by the project .

Matching Grant contribution by Project towards OMIF
